A diagram of a 10x10 grid. A thick horizontal line runs across the grid at row 6, and a thick vertical line runs down the grid at column 5. The top-left 5x5 area of the grid is shaded gray. The intersection of the thick horizontal and vertical lines is marked with a small black square. The number '9' is located in the cell at row 4, column 5. The number '0' is located in the cell at row 4, column 10, followed by a small black dot to its right.
